

Name: _____

Dystopian / Utopian Story Outline

As part of your story planning process you need to create an outline that details the chronology and flow of your narrative. You will need to include the following information.

Restate the environment in which your story takes place. What is the relevance of this environment to your story?

Restate the animal you've generated and the adaptations it developed. Why are these adaptations evolutionarily significant?

What is the objective of your story? In other words, what message do you want your audience to walk away with?

How will your story flow? Provide a solid summary of your story in one carefully written paragraph. Make sure to consider how you will start your story (how you plan to hook your audience), how the conflict will build (leading to the story's climax), and in what way the conflict is resolved.
